Re: Petition of Tennessee One Call System, Inc.

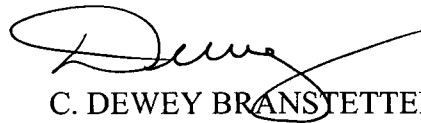

Dear Ms. Standley:

As a follow up to your letter of June 17th enclosed is the original and 13 copies of the response of Tennessee One Call System, Inc. to your request for information.

If you have any questions concerning this information, or if there is anything further that I need to do to help expedite this petition, please do not hesitate to contact me.

With best regards, I am

Sincerely yours,

C. DEWEY BRANSTETTER, JR.

**BEFORE THE TENNESSEE REGULATORY AUTHORITY
NASHVILLE, TENNESSEE**

IN RE:)
)
PETITION OF TENNESSEE)
ONE CALL SYSTEM, INC.)
FOR ALLOCATION OF AN)
N11 (ABBREVIATED DIALING)
CODE))

TRA Docket No. 05-00161

**ADDITIONAL INFORMATION SUBMITTED IN SUPPORT
OF PETITION FOR 811 DESIGNATION**

Pursuant to the Authority's request for additional information concerning the above-referenced petition, Tennessee One Call System, Inc. (Tennessee One Call) submits the following additional information in support of its petition for the allocation of the number 811 for the purpose of providing advance notice of excavation activities.

1. Attached as exhibit A is a list of the current members of Tennessee One Call.
2. Attached as exhibit B is a copy of the Accounts Receivable/Member Fee Procedures concerning funding between Tennessee One Call and its member.
3. Attached as exhibit C is a copy of the Tennessee One Call System, Inc. fee calculations setting forth the fee structure for Tennessee One Call for the current year.
4. Tennessee One Call operates 24 hours a day, seven days a week, including all holidays. If the 811 number is allocated to Tennessee One Call, Tennessee One Call already has sufficient staff in place to answer calls

that will be generated by dialing the 811 number 24 hours a day, seven days a week.

5. If the petition is granted, it is anticipated that cellular end users who dial 811 will be connected to Tennessee One Call. Although it will be up to the cellular companies to insure that their calls are switched in a method that will route the calls to Tennessee One Call, Tennessee One Call is willing to provide whatever assistance it can to insure that cellular end users are able to dial 811 and reach Tennessee One Call.
6. Attached as exhibit D is an explanation of Tennessee One Call's current operations.
7. Attached as exhibit E is the Tennessee One Call budget for the current fiscal year. The Tennessee One Call Budget Review Committee will not begin working on a 2006 budget until August, 2005.

Respectfully submitted,

C. DEWEY BRANSTETTER, JR., #9367

ACCOUNTS RECEIVABLE/MEMBER FEES PROCEDURES

- 1) All invoices issued will include the due date and payment terms on the face of the invoice. The late fee policy will be stated on the footer of the invoice. (*A late fee of \$25.00 per month may be charged on late payments*).
- 2) At **60 days (February 1)** from the invoice date, a statement will be sent to the customer and will be followed up by subsequent **30 day** statements. Subsequent statements will include a late payment and overdue notice, and will provide the member with a calculation of the membership fees and late payment fees that have accrued.
- 3) At **90 days (March 1)** aging, phone contact will be made to the appropriate customer Accounts Payable contact. Documentation will be made in the Company A/R collection manual with the details of the customer contact response.
- 4) An A/R manual will be maintained which manual shall include two sections; First, a printout from the accounting program of the month end aging report, with notations as to which accounts will have follow-up activity; Second, a report sheet, filed by customer, which shall have notations as to the customer contact, responses and final disposition/payment information.
- 5) At **120 days (April 1)** a letter will be sent Certified Mail stating that membership will be terminated for non payment with a statement stating that non membership in Tennessee One Call System will prevent them from collecting damages to their underground facilities according to the Underground Damage Prevention Act TCA 65-31-101.
- 6) At **150 days (May 1)** a letter drafted by the organization's attorney will be sent Certified mail stating that non payment within 30 days will result in termination on June 1. The letter will include a statement explaining non membership in Tennessee One Call System will prevent them from collecting damages to their underground facilities according to the Underground Damage Prevention Act, TCA 65-31-101.
- 7) At **180 Days (June 1)** Membership will be terminated and the account will be turned over to a collection agent for payment.

EXHIBIT

B

Tennessee One Call System, Inc
Member Fee Calculations

The Tennessee One Call System Board of Directors has adopted the following fee structure as recommended by the Fee Structure Committee for 2005.

All members of Tennessee One Call System will pay a membership fee of \$200.00 per year. Member utilities that receive less than 100 notices per year will receive the first 100 notices at no additional charge. Member Utilities that receive more than 100 notices per year will be billed their industry rate (see below) per notice for all notices. Adjustments will be made in accordance with previous years billing. If a member received more notices than what they were billed for in the previous year, they will be billed for the difference at last year's rate. If a member received less notices than what they were billed for in the previous year, they will receive a credit toward their next year billing. Minimum annual billing will be \$200.00.

Any questions can be directed to Randy Lincoln at 615.367.1110.

Thank you for your continued support.

Industry Rates	2005
Water/Waste Water	\$0.95
Electric	\$0.95

Tennessee One-Call System, Inc. is a non-profit Tennessee corporation established in 1983, whose mission is to act as an advance notification service to operators of underground facilities anywhere within the state. A Board of Directors governs Tennessee One-Call System. We are the only such service in Tennessee and are recognized as the "official" one-call service for the State of Tennessee.

Tennessee One-Call's purpose is as follows:

- To promote a higher level of public safety
- To reduce underground utility damages
- To minimize utility service interruption
- To reduce on-the-job injuries, and worse
- To protect the environment

Tennessee One-Call System was established under Chapter 31, of the Official Code of Tennessee Annotated, §65-31-101, Tennessee Underground Utility Damage Prevention Act.

Tennessee One-Call's board is composed of representatives from each type of utility in Tennessee, a contractor representative and a representative from the Tennessee Association of Utility Districts. For a complete and up-to-date listing, please visit our website at www.tnonecall.com. You can go to the Table of Contents on our website to find this information.

Tennessee Code Annotated §65-31-101 requires anyone who engages in, or is responsible for, the planning or performance of any type of excavation to provide at least three working days advance notice to underground facility owners who may be affected by the excavation.

Excavation means an operation for the purpose of the movement, placement or removal of rock, earth or other materials in or on the ground by use of mechanized equipment, or by discharge of explosives, and including auguring, backfilling, digging, ditching, drilling, grading, plowing-in, pulling-in, ripping, scraping, trenching and tunneling, but not including the tilling of soil for agricultural purposes, or the digging of holes for fence posts on private property. Agricultural purposes shall include surface drainage activities such as plowing, planting and combining, but does not include blasting, setting drainage tiles, sub-soiling or other subsurface activities.

Tennessee One-Call System, Inc. a not for profit corporation, is a statewide one-call notification system which was developed to provide excavators and the general public with the ability to inform multiple owners of underground facilities of intended excavation with just one phone call. Its purpose is to receive excavation and demolition location information from excavators, contractors, builders, and private citizens who are going to dig, drill, blast, and/or bore and to disseminate this information to its members.

D

The Tennessee One-Call System is funded by member utilities operating or maintaining underground facilities within the State of Tennessee. Tennessee law mandates that all gas utilities (both local distribution and pipeline) be members of Tennessee One-Call System, Inc. All electric, telephone, cable, water and sewer companies in the state should be members of Tennessee One-Call System, Inc.

The Underground Utilities Damage Prevention Act requires notification to the statewide one-call center. All calls to Tennessee One-Call are recorded and each notification is assigned a ticket number. These records are kept for at least 48 months to document the notification and maybe used in the event damage occurs.

Tennessee One-Call System endorses the national Dig Safely Campaign by promoting all stakeholders to:

Call Before You Dig
Wait the Required Amount of Time
Respect the Marks
Dig with Care

Tennessee One-Call System believes that education is a key to success in underground facility damage prevention. Our liaisons are available to conduct training sessions for members and excavators throughout Tennessee. Presentations can be tailored to meet the specific needs of individual companies. There is no charge for this – it is a free service.
